More Resources

- **Project MUSE** is the only database that has the journal *Sign Language Studies* available in full text from 1972 through the most recent issue.
- **OneSearch** is the library’s version of Google. Start at the library homepage (library.csun.edu) and type your search in the search box in the middle of the page.

Use quotation marks to search for exact phrase.

Limit results to scholarly (peer-reviewed) journals or by format (book, article, etc.) by clicking on options at left of screen.

Other ways to limit are by date published, subjects assigned to sources, etc.

Explore the options.
